

Dr. J. Smith

Math 11

Office	S/M 330
Office Hours	M-F 8-9 am
Visiting Hours	M-F 12-3 pm
Phone	949-582-4315
Email	jsmith@saddleback.edu

Exams: There are three exams. Each exam covers 1/3 of the semester. The final exam is the third exam and it is not cumulative. See your timeline for the dates of these exams. There are **NO MAKE UP EXAMS**, however, arrangements may be made to take an exam early. Arrangements must be made in my office.

Quizzes: There are approximately 16 quizzes given at unannounced times during the semester. They do not count in the grade calculation.

Homework: Homework is due each class period. The last time I will look at it is on the LD date on your timeline. If you hand in your homework, I will give you a few points at the end of the semester if needed.

Grades: Each exam is worth 100 points for a total of 300 points. Grades are based upon percent (90/80/70/60).

Attendance: Regular attendance (and class participation) is vital to your success in this class. You may be dropped after your fourth absence. The responsibility to drop a class remains with the student so do not assume you have been dropped. Tardiness and/or early departures are disruptive to everyone. Coming into class late or leaving early three times will be counted as one absence.

Cell Phones: Be sure your cell phone is turned off and put away. Any cell phone that is out or goes off during class will be placed on the computer table. It will be your responsibility to pick it up after class.

Student Learning Outcomes

Students who successfully complete Math 11 will be able to:

1. demonstrate mastery of the computational skills needed for calculus, including the ability to evaluate limits, derivatives, and anti-derivatives.
2. demonstrate the critical thinking skills necessary to apply calculus techniques to solve application problems.
3. demonstrate proficiency in graphing.
